EDUCATION

Technological University Dublin

Bachelor of Science in Computer Science

Sep 2022 - Expected Graduation Sep 2026

PROJECTS

Full Stack Website - RetroReworked

Designed and developed a full-stack web application for a vintage clothing brand, utilizing HTML, CSS for front-end development, and PHP with MySQL for back-end functionality. Implemented dynamic inventory management and user interaction features, ensuring seamless user experience whilst following the AGILE methodology to manage project workflow

Clothing Brand Landing Page - Aniuzu Apparel

Created a responsive and visually appealing mock landing page for a clothing brand using HTML, CSS, and JavaScript. Integrated interactive elements to enhance user engagement and employed modern web design principles for optimized layout and accessibility.

Portfolio Website - Jordan Aniuzu

Designed and developed my professional portfolio website to highlight my projects and skills utilizing HTML, CSS, and JavaScript for front-end development, with REST APIs and AJAX for dynamic content loading and seamless user interaction.

TECHNICAL SKILLS

JavaScript, Python, PHP, Java, Git, HTML, CSS, Linux, JQuery, MySQL, C#, C, C++, REST API, Trello.
